ARTICLE 204: APPROVALS

204.1. USA member swim clubs may not host Approved meets unless approved by the House of Delegates at the scheduling meeting or the Board of Directors. USA Swimming clubs hosting closed meets are exempt from this requirement.

ARTICLE 205: AWARD OF DATES

205.1. SCHEDULING

- .1 Except when the House of Delegates determines otherwise by a 2/3 majority, the schedule for each ~~indoor-~~ short course season (September through approximately April) shall be approved at the corresponding House of Delegates meeting the previous Spring and the schedule for each ~~outdoor-~~ long course season (approximately May through August) shall be approved at the corresponding House of Delegates meeting the previous Fall.
- .2 ~~At least one hundred twenty (120) days prior to each House of Delegates meeting, the~~ The Technical Planning Committee shall ~~submit to the Board of Directors~~ develop a ~~preliminary recommended~~ framework for the appropriate future season schedule. The framework shall include target dates for all meets at all levels of North Carolina Swimming and protected dates. The framework shall begin with national, zone, and sectional meet dates and provide for logical progressions toward season culminating events for all levels of NCS swimmers. ~~A final framework shall be submitted to and approved by the BOD and communicated to the membership at least 40 days prior to HOD.~~
- .3 A protected date is a date where no additional NCS sanctioned meets open to a particular level of swimmer may be subsequently added to the schedule. Saturday and Sunday of any weekend for the following events on the scheduled NCS calendar will be protected dates for which no meets shall be sanctioned or approved except as noted.
 1. Regularly scheduled HOD meetings
 2. NCS SC 14 and Under and Senior Championships Meets
 3. NCS LC 14 and Under and Senior Championships Meets
 4. NCS Open Water Championships

Closed championships are exempt. Meets may be awarded on the dates of events 2 or 3 for swimmers who are ineligible to compete in the protected meet.

The BOD may approve meets on protected weekends that do not detract from attendance at the protected event.

In the year of Olympic Trials, a meet may be sanctioned with the support of the National Team Director during the protected date of the Open Water Championships as long as the meet is designed and sanctioned to provide a beneficial opportunity to swimmers participating in or are nearly qualified for the selection meet (minimum of Winter Junior time standard).

- .4 ~~The Board of Directors shall review the recommended framework submitted by the~~ The Technical Planning Committee, ~~approve a scheduling framework, including any changes it may wish to make, and~~ shall post the ~~approved~~ scheduling framework to the North Carolina Swimming website at least ~~ninety (90)~~ forty (40) days prior to the upcoming House of Delegates meeting.

- .5 Based on the approved scheduling framework, the Technical Planning Committee shall solicit bids from member clubs and prepare a recommended schedule for consideration by the House of Delegates.
- .6 In order to bid for a meet, a club shall complete the current bid submission form (as prepared by the Technical Planning Committee). This form shall include proposed dates, site, type of meet, tentative order of events and qualifying standards (if any), all proposed fees (including, but not limited to, entry fees, facility surcharges, travel fund surcharges, parking fees, spectator fees and any other NCS approved fees), and other relevant information about the meet. ~~In addition, for NCS Championship and other defined (either by Rule or policy) meets, the bid form shall include a statement of acceptance by the bidding club of all Rules or policies applicable to the meet being bid.~~
- .7 After a meet has been approved as part of the schedule, material changes to information originally submitted in the bid submission form, including a change in venue or changes in fees that are mandatory and apply to all or virtually all participants, shall be submitted to the General Chair~~man~~ as soon as the changes are known to allow for a review of the proposed changes by the Technical Planning Committee, Board of Directors, and/or House of Delegates, as appropriate. Possible actions by North Carolina Swimming shall include a fine or revocation of scheduling approval.
- .8 At each appropriate House of Delegates meeting, the House of Delegates will approve, with possible modifications, the corresponding upcoming season schedule.
- .9 Once approved, the schedule shall be open to additional meets ~~requiring scheduling~~ as long as any such meet does not conflict with a protected date. Any requests for additional meets ~~requiring scheduling~~ must be submitted to both the technical planning committee and the sanctions committee prior to the appropriate sanction request deadline (30 days prior to the meet start date for closed, dual, tri or quad meets and 60 days prior the meet start date for all other type meets). Requests for additional meets that are made after the sanction request deadline shall be assessed a late fee ~~in addition to the sanction fee of \$100 for intersquad meets and \$300 for all other meets, as detailed in the summary chart in section 203.6.~~ Meet requests within 8 days of the meet start date will not be considered. The Technical Planning Committee shall have the authority to approve or reject any additional meets submitted for scheduling approval. A club may appeal any rejection or fine to the Board of Directors.
- .10 Once the schedule is approved, any club who has had its bid approved is expected to run the awarded meet. If a club decides not to hold a meet, it may be subject to penalty, as indicated below:
 - A. For a Championship meet, if the club notifies the Technical Planning Committee at least 180 days prior to the first day of the meet, there shall be no penalty. If the notification is received less than 180 days prior, the club shall be fined \$500.
 - B. For other meets, if the club notifies the Technical Planning Committee at least 120 days prior to the first day of the meet, there shall be no penalty. If the notification is received less than 120 days prior, the club shall be fined \$200.

C. If the Technical Planning Committee determines that an awarded meet is not essential to the schedule, it may allow the club to withdraw its bid without penalty. For example, the approved schedule may include 3 qualifying meets on a given weekend. Later, the Committee may determine that only 2 such meets are needed.

.11 In the event that a scheduled meet, considered essential to the schedule, is not going to be held by a club, the Technical Planning Committee is authorized to solicit bids from other clubs and make a recommendation for an alternate host to the Board of Directors for final determination of alternate host.

.12 The approved schedule shall be prominently posted on the North Carolina Swimming website. Any additions to or withdrawals from the approved schedule shall also be posted in way that draws attention to the change.

| 205.2. SANCTION REQUESTS - The award of ~~sanction and~~ meet date(s) shall be for the purpose of scheduling and shall not affect in any way the sanction rules in Article 201. Dates not herein classified or restricted shall be open for sanction requests. Such requests shall not be unreasonably withheld and the reason(s) for any denial shall be given to the requesting entity within a reasonable amount of time. A majority vote by the NCS House of Delegates or Board of Directors can override a denied sanction request.
