Providing Energy. Improving Lives.®

SIX MILLION

In America, drowning is the leading cause of death for children younger than 4 ... the second leading cause of death for children under 14.

But we know the cure.

Swimming lessons can reduce the risk of childhood drowning by 88 percent.

The USA Swimming Foundation and our Make a Splash Tour, presented by Phillips 66, have worked for a decade to support local swim lesson providers in delivering **6 million swim lessons** to children across the United States.

Whose life will you save when you help us teach the next 6 million?
